

5. Chapter/Club Meetings (Field Trips)	>4	3 - 4	2	1	0	
Comments: Field trips are a great opportunity to expand on what you have learned in the class. In addition, most professionals find it rewarding to show off their projects and interact with students.						
6. Chapter/Club Meetings (Social Functions)		>2	2	1	0	
Comments: Social functions are great opportunities to let upper-class students relax with their peers and allow freshman and sophomore students to see that engineering is fun as well as challenging. I encourage you to fit a few of these in each semester.						
7. Chapter/Club Meetings (Attendance)	>60%	40%-60%	25%-40%	15%-25%	<15%	Voluntary
Comments: I encourage you to continue to improve on ways to increase attendance to meetings.						
8. Section/Branch Meetings (Host)	>16	11 - 16	6 - 10	2 - 5	<2	Hosted
Comments: Hosting Section/Branch meetings are excellent opportunities to network with professionals and to showcase your ASCE officers and members.						
9. Section/Branch Meetings (Attendance)	>16	11 - 16	6 - 10	2 - 5	<2	Hosted
Comments: Not only is it an opportunity to network but also to see what some professional/technical issues are in your area. Encourage all students to attend.						
10. Regional Conference (Attendance)	>10	7 - 10	4 - 6	2 - 3	<2	
Comments: The regional conferences are opportunities to interact with students from other schools in a friendly competitive environment. I encourage you to continue to participate in these events.						
11. Workshop for Student Chapter Leaders. Comments only: The WSCL really helps future chapter/club leaders get a head start on the upcoming year. I encourage participation of all ASCE leaders and make sure that the faculty and practitioner advisors know they are welcome as well.						
12. Newsletter and Website. Comments only: Newsletters and websites are great opportunities to get your message out and let others know of all your good work. Making sure they get in the hands of sophomores and freshman can help with membership as well.						
13. Presentations outside of Chapter/Club	>3	3	2	1	0	
Comments: Presentations outside of the chapter/club increases exposure of your chapter/club and give students an opportunity to show off their hard work. Many times representatives from companies are impressed by student presentations and seek out ways that their company can help your chapter/club or provide job opportunities to students.
