

FLC/SAS Severe Weather and Emergency Policy Statement

During severe weather such as blizzards, tornado warnings and thunderstorms, Fiedler Learning Commons and SAS tutoring may close at the discretion of the Assistant Dean for RDI and the Academic Success Center Coordinator. If these centers close any time after 3 p.m. due to severe weather, they will be closed the remainder of the evening and will not reopen until the following business day. Efforts will be made to let students know of closings in real-time through social media and other means.

Note: If your belongings were left in either of those spaces during closings, you may retrieve them on the next business day or call Campus Police for assistance.
