Courses Numbered 600-999

Architecture Engineering and Construction Science Management

CNS 655 - Current Trends in Construction

Credits: (2)

Broad overview of relevant topics in the construction industry in the areas of project management, field supervision, estimating, contracting, and various other special topics, taught by industry professionals who specialize in their area of expertise.

Requisites
Prerequisite: CNS 641, 642, and 645. Prerequisite or concurrent enrollment: CNS 650.

When Offered
Fall, Spring

CNS 655 - Current Trends in Construction

Credits: (2)

Broad overview of relevant topics in the construction industry in the areas of project management, field supervision, estimating, contracting, and various other special topics, taught by industry professionals who specialize in their area of expertise.

Requisites
Prerequisite: CNS 641, 642, and 645. Prerequisite or concurrent enrollment: CNS 650 and 660.

When Offered
Fall, Spring

Impact: None

Rationale: A correction of the intended co-requisite for the course.

Effective: Spring 2015
Academic Standards

After admission to the Professional Program, students will be subject to the following academic standards that are more stringent than those for the University.

1. **Academic Grade Policy**
   A letter grade of ‘C’ or better is required for all pre-requisites prior to taking subsequent professional program courses.

2. **Warning of Unsatisfactory Progress**
   Regardless of the overall g.p.a., a student with any “D” or “F” grade in any term or who has a term g.p.a. below 2.3 will receive a “Warning of Unsatisfactory Progress.” This warning will be removed if the student earns “C”s” or better in at least 12 credit hours of core courses with no “D’s” or “F’s” during the next semester in residence.

   A student whose cumulative resident g.p.a. drops below 2.3 will receive a “Warning of Unsatisfactory Progress.” This warning will be removed if the student raises his or her cumulative resident g.p.a. to 2.3 or above during the following semester.

3. **Professional Program Probation for Unsatisfactory Progress**
   Regardless of the overall g.p.a., a student who has received a “Warning of Unsatisfactory Progress” will be placed on “Professional Program Probation for Unsatisfactory Progress” if he or she receives a “D” or “F” or earns below a 2.3 semester g.p.a. for any subsequent term, including any summer session.

   A student whose cumulative resident g.p.a. has dropped below 2.3 and has received a “Warning of Unsatisfactory Progress” will also be placed on “Professional Program Probation for Unsatisfactory Progress” if he or she does not raise his or her cumulative resident g.p.a. to 2.3 or above during the “Warning of Unsatisfactory Progress” semester. A student placed on Professional Program Probation may not automatically enroll in any Department of Architectural Engineering and Construction Science courses.

   The student may remain in the Professional Program after the probationary semester provided that the student has demonstrated the ability and desire to meet the criteria as set forth in the above paragraphs. The student placed on probation must take the schedule of courses assigned by the Academic Affairs Committee of the department and achieve a minimum g.p.a. of 2.3 or greater, OR a minimum GPA as established by the Academic Affairs Committee, with no “D” or “F” grades during the “probationary semester” to be eligible to remain in the Professional Program and to take Professional Program courses.

   Any appeal for removal of this probation may be made by filing an appeal form with the Department Head of Architectural Engineering and Construction Science at least ten calendar days prior to the first day of the semester. The Department Head may reject any application or may submit it to the Academic Affairs Committee for consideration. Any and all actions on applications submitted by the Department Head will be made by the Academic Affairs Committee of the Department in a hearing in which the student will be interviewed.

4. **Dismissal from the Program**
   If a probationary student meets the requirements to remain in the Professional Program, any subsequent grade of “D” or “F” or a term GPA below a 2.3 during any subsequent term will result in dismissal from the Professional Program for a period of one semester year. During this period, the student cannot enroll in any courses offered by the department. After the one-semester year dismissal, the student may be readmitted to the program with their course schedule and grade point to be earned to be established by the Academic Affairs/Professional Program Committee of the department. Failure to meet the academic standards outlined above in any ensuing term or failure to comply with the academic committee’s direction will result in permanent dismissal from the programs of the department.

** The warning, probation, and dismissal actions referenced above are departmental actions that are separate and distinct from Academic Warning and Academic Dismissal as defined by the University General Catalog. Grades earned during an intersession will not be considered by the Department in the determination of unsatisfactory academic progress by the department.

ARE & CNSM Academic Standards - Fall 2014
