The College of Engineering at K-State has many unique scholarship opportunities for our Kansas students. We understand that the cost of higher education continues to increase and we will do everything we can to make each student’s college education as affordable as possible. Outside of the $2.5 million dollars in scholarships that our students are able to apply for when they are a student on campus, we have many University and College scholarships for our in state students. All of the K-State Scholarships are located on the Financial Assistance website at:

www.k-state.edu/sfa/scholarships/

There are many great scholarships which help make K-State an affordable option for our Kansas students. As the largest engineering program in the state, we know supplementing a college education with scholarships is extremely important and something we continue to invest in. If you have questions regarding engineering related scholarships, please contact the College of Engineering by emailing kstateengg@k-state.edu or calling 785-532-5455.
