Notice of Nondiscrimination
Kansas State University is committed to nondiscrimination in admissions, programs and employment. Inquiries and complaints: Contact Director of Institutional Equity, Kansas State University, 103 Edwards Hall, Manhattan, KS 66506-4801, (Phone) 785-532-6220, (TTY) 785-532-4807.

Application Process

Minimum admission requirements

- A bachelor’s degree from a college or university accredited by the cognizant regional accrediting agency
- Undergraduate preparation in the proposed major field equivalent to that acquired by a graduate of Kansas State University, or evidence of an appropriate background for undertaking an advanced degree program
- Cumulative grade point average (GPA) of 3.0 or higher on a 4.0 scale, or GPA of 3.0 in the last 60 hours of coursework

Financial assistance
The College of Engineering offers competitive Graduate Research Assistantships (GRAs) and Graduate Teaching Assistantships (GTAs), providing stipend and tuition support. Competitive research grants and contracts support GRAs and the College of Engineering supports GTAs.

Several graduate student scholarships are available through the college. Graduate students are also eligible for philanthropic and nationally funded graduate fellowships.

International student requirements

- Internet-based TOEFL (IBT) minimum score of 79
- IELTS minimum score of 6.5
- PTE minimum score of 58

English language program (ELP)
Kansas State University offers English language graduate support courses. ELP academic advisers help students, who are admitted to study in a degree program, make the transition from the ELP into their academic departments. For more information, visit k-state.edu/elp.

Application deadlines

- Jan. 8 for fall (Aug.) enrollment
- Aug. 1 for spring (Jan.) enrollment
- Dec. 1 for summer (June) enrollment

Thank you for considering graduate programs in the K-State College of Engineering, where we are committed to excellence.

We offer master’s and doctorate degrees, and graduate certificates in eight departments. Each of the programs provides a quality education, combining graduate courses and cutting-edge research in areas related to energy, health, infrastructure, and information technology.

K-State will provide the unique experience of interacting and learning from internationally known faculty and scientists, utilizing state-of-the-art facilities and working alongside students, faculty, and staff from different countries and diverse cultural backgrounds.

I invite you to visit our website and learn more about the different graduate program opportunities we offer. Please feel free to contact me and/or the graduate coordinator in your specific area of interest for more information, or to arrange a visit to the College of Engineering. Each department offers financial assistance in the form of graduate research and teaching assistantships available to outstanding candidates.

We look forward to having you at K-State.

Sincerely,
Ronaldo G. Maghirang
Associate Dean for Research and Graduate Programs
Professor, Biological and Agricultural Engineering

The College of Engineering drives research- and innovation-related breakthroughs by investing in, promoting, and advancing research in health, energy, infrastructure, and information technology.
