Today’s Seminar
Linbeck Group, LLC

Mark Linenberger is a Vice President and Client Executive with Linbeck. Mark graduated from Kansas State University with a degree in Construction Science. He has been with Linbeck for 27 years, spending the majority of his career working on healthcare related projects and providing project and program management services for multiple clients. Mark provides project team leadership through diligent planning and oversight of Linbeck’s TeamBuild® delivery process. Linbeck utilizes their Lean Operating System (LOS) for preconstruction and for implementation of building construction. Linbeck’s LOS increases reliability and creates added value for their clients through the elimination of waste. The topic of today’s presentation is the use of Virtual Design and Construction within a Lean Operating System, providing an overview of both current and future changes in the design and construction industry.

Fall 2011 Seminar Schedule
