[NASA Academy Internship Program Call for Applications](#) – Due Feb. 15th, 2015

The Academy is the premier internship offered by NASA and has a main goal of training future leaders of the space industry. The summer research program attracts undergraduate and graduate students of various backgrounds, mostly in STEM fields. The interests of your undergraduate and graduate students may very well align with the opportunities provided by NASA. Applications just opened on [NASA OSSI](#) and can be found by going to the "Search for Opportunities" window and searching for the keyword "Academy." The application deadline is February 15th, 2015.

Workshop Series: [Working with Industry Boot Camp](#)

If you missed the first session of the “Working with Industry Boot Camp” on January 21, view the [livestream video](#). The workshops will provide you with tools to establish mutually beneficial industry collaborations and develop sustained corporate partnerships. Big 12 Faculty Fellowship Program Accepting Applications

Apply for a Big 12 Faculty Fellowship Award for the 2015-2016 academic year. There are two categories of this award that faculty member may apply: a regular Fellowship Award and a Mentoring Fellowship Award. Both fellowships provide up to \$2,500 for expenses related to a visit by a faculty member to another Big 12 institution. Detailed information about the applications for this award are available on the [provost's home page](#). The deadline for submission of the applications to the provost's office is May 1, and should be submitted electronically in PDF format to Gail Zeak at gaiill@k-state.edu. Notification will be provided to faculty by June 15.

ONR 2015 Young Investigator Program

The [Office of Naval Research](#) (ONR) is interested in receiving proposals for its [Young Investigator Program \(YIP\), 15-FOA-0006](#). YIP seeks to identify and support academic scientists and engineers who are in their first or second full-time tenure-track or tenure-track-equivalent academic appointment and for FY15, have begun their first appointment on or after Nov. 1, 2009, and who show exceptional promise for doing creative research. The program's objectives are to attract outstanding faculty members of Institutions of Higher Education (hereafter also called "universities") to the Department of Navy's (DoN's) research program, to support their research, and to encourage their teaching and research careers. Proposals should address research areas described in the ONR science and technology (S&T) department section of [ONR's website](#). Full proposals are due no later than 4:00 PM EST on Wednesday, March 4, 2015.

[Research Meetings for Faculty Meetings – Spring 2015](#)

- “Interdisciplinary Opportunities through Engineering Centers and Institutes: Part II”
Thursday, March 5, 3:30-5:00 pm, Fiedler Auditorium
Learn about four additional centers and groups within the College of Engineering that provide opportunities for research collaboration. This session will cover Center for Hazardous Substance Research (CHSR), Center for Sustainable Energy (CSE), Institute for Environmental Research (IER) and Engineering Extension. Speakers on this panel include: Steve Eckels, Professor, Mechanical Engineering, Director of IER; Larry Erickson, Professor, Chemical Engineering, Director CHSR; Mary Rezac, Phillips 66 Professor, Chemical Engineering, Director of CSE; Bruce Snead, Director of Engineering Extension
- “Opportunities for Engineering Faculty to Collaborate with NBAF, BRI, NICKS and ICCM”
Thursday, April 30, 3:30-5:00 pm, Fiedler Auditorium
How can engineering faculty be more involved in National Bio and Agro-defense Facility, Biosecurity Research Institute, Nanotechnology Innovation Center of Kansas State, and Institute for Computational Comparative Medicine. Come listen to the following panel of speakers: Ron Trewyn, K-State Liaison to NBAF; Stephen Higgs, Director, BRI and University Distinguished Professor; Nancy Monteiro-Riviere, University Distinguished Professor of Anatomy and Physiology, Veterinary Medicine; Jim Riviere, University Distinguished Professor of Anatomy and Physiology, Veterinary Medicine
